

ANGLE PADS FROM MULTI-WALL

Construction

Multi-Wall **Angle Pads** are preformed protective packaging pads constructed of laminated layers of 3/16" A flute single face corrugated paper. These 90 degree angle built-up pads are designed to various thicknesses and lengths to meet or exceed National Motor Freight Specifications.

Applications

Angle Pads are designed to provide strong, crush-resistant edge protection for a multitude of products. The pre-formed shape of these pads allow for fast, flexible application on your packaging line. Typical uses are:

- Case goods furniture
- RTA furniture
- Kitchen cabinets
- File cabinets
- Office furniture
- Work stations
- Appliances
- Industrial shelving and cabinets
- Electronics
- Stereo speakers

Available liners, widths, lengths, and thicknesses

The need for foam or polyethylene wrapping, and the labor to apply them to your product, can often be eliminated when **Angle Pads** are ordered with our non-abrasive liners. **Angle Pads** are available with standard corrugated liner or with optional non-abrasive linings: Michelman® coating, MULTI-SOFT tissue, or microfoam.

Face widths (the areas that contact the packaged product) are:

A = 2 1/2 x 2 1/2"	WA = 4 x 2 1/2"
B = 2 x 2"	WC = 4 x 3"
C = 3 x 3"	WX = 4 x 6"
W = 4 x 4"	WH = 4 x 7"
M = 5 x 5"	AH = 2 1/2 x 7"

Lengths are custom made and available up to 150".

Thicknesses for the **Angle Pads** can be made up to 8 ply.
