

CORNER PADS FROM MULTI-WALL

Construction

Multi-Wall **Corner Pads** are **Angle Pads** constructed of laminated layers of 3/16" A flute single face corrugated built up to various thicknesses and lengths to meet or exceed National Motor Freight Specifications. **Corner Pads** are fabricated by mitering or "notching" **Angle Pads** to fold 90 degrees around the edge of the product to be packaged.

Applications

Corner Pads are used in a multitude of applications where durable corner protection is required. **Corner Pads** are particularly useful where compression strength and precision carton clearances are required, Typical uses are:

- Case goods furniture
- RTA furniture
- Kitchen cabinets
- File cabinet
- Office furniture
- Work stations
- Appliances
- Industrial shelving and cabinets
- Electronics
- Stereo speakers

Available liners, widths, lengths, and thicknesses

The need for foam or polyethylene wrapping, and the labor to apply them to your product, can often be eliminated when **Corner Pads** are ordered with our non-abrasive liners. **Corner Pads** are available with standard corrugated liner or with optional non-abrasive linings: Michelman® coating, MULTI-SOFT tissue, or microfoam.

Face widths (the areas that contact the packaged product) are:

A = 2 1/2 x 2 1/2"	WA = 4 x 2 1/2"
B = 2 x 2"	WC = 4 x 3"
C = 3 x 3"	WX = 4 x 6"
W = 4 x 4"	WH = 4 x 7"
M = 5 x 5"	AH = 2 1/2 x 7"

Lengths are custom made and available up to 150".

Thicknesses for the **Corner Pad** can be made up to 8 ply.
