

PYRAMID PADS FROM MULTI-WALL

Construction

Multi-Wall **Pyramid Pads** are corner pads constructed of laminated corrugated box board built up to various thicknesses to meet or exceed National Motor Freight Specifications.

Applications

Pyramid Pads are used in a multitude of applications where durable corner protection is required. **Pyramid Pads** are particularly useful where carton clearances are required. The **Pyramid Pad** can be inserted between the edge of the carton and the product being packaged. Typical uses are:

- Case goods furniture
- Kitchen cabinets
- File cabinets
- Work stations
- Appliances
- Office furniture
- Industrial shelving and cabinets
- Electronics
- Stereo speakers

Available thicknesses

Pyramid Pads are available in a variety of thicknesses, up to 10 plys. Stock pads include 3, 4, and 5 ply pads.
